Special Issue
Phenolic Compounds: Free radical mechanisms of toxicity, catalysis and protection

Guest Editors: V.E. Kagan and R.P. Mason

Nitric oxide trapping of the tyrosyl radical-chemistry and biochemistry
M.R. Gunther, B.E. Sturgeon, R.P. Mason (USA) 1–9
Tyrosyl radical production by myeloperoxidase: a phagocyte pathway for lipid peroxidation and dityrosine cross-linking of proteins
J.W. Heinecke (USA) 11–22
Oxidation of DNA, proteins and lipids by DOPA, protein-bound DOPA, and related catechol(amine)s
D.I. Pattison, R.T. Dean, M.J. Davies (Australia) 23–37
Antioxidant and prooxidant action of eugenol-related compounds and their cytotoxicity
S. Fujisawa, T. Atsumi, Y. Kadoma, H. Sakagami (Japan) 39–54
Quinoids, quinoid radicals, and phenoxyl radicals formed from estrogens and antiestrogens
J.L. Bolton (USA) 55–65
Plant phenolic antioxidant and prooxidant activities: phenolics-induced oxidative damage mediated by metals in plants
Y. Sakihama, M.F. Cohen, S.C. Grace, H. Yamasaki (Japan, USA) 67–80
Prooxidant activity of free radicals derived from phenol-containing neurotransmitters
A.G. Siraki, P.J. O'Brien (Canada) 81–90
Prooxidant activity and cellular effects of the phenoxyl radicals of dietary flavonoids and other polyphenolics
G. Galati, O. Sabzevari, J.X. Wilson, P.J. O'Brien (Canada, Iran) 91–104
Anti-/pro-oxidant effects of phenolic compounds in cells: are colchicine metabolites chain-breaking antioxidants?
M. Modriansky, Y.Y. Tyurina, V.A. Tyurin, T. Matsura, A.A. Shvedova, J.C. Yalowich, V.E. Kagan (USA) 105–117

Instructions to Authors 119–120

Contents of Volume 177 Nos. 2–3

Articles

Neocarzinostatin induces Mre11 phosphorylation and focus formation through an ATM- and NBS1-dependent mechanism
S.-S.F. Yuan, H.-L. Chang, M.-F. Hou, T.-F. Chan, Y.-H. Kao, Y.-C. Wu, J.-H. Su (Taiwan) 123–130
Comparisons of human-cell-based and submitochondrial particle bioassay responses to the MEIC compounds in reference to human toxicity data
K.E. Gustavson, H.W. Read, J.M. Harkin (USA) 131–142
Effect of the herbicide 2,4-dichlorophenoxyacetic acid on uropathogenic *Escherichia coli* virulence factors
C.E. Balagué, C.S. de Ruiz, R. Rey, A.M.E. de Duffard, M.E. Nader-Macías (Argentina) 143–155

Aroclor 1254-induced cytotoxicity in catecholaminergic CATH.a cells related to the inhibition of NO production
J.-H. Kang, W. Jeong, Y. Park, S.Y. Lee, M.W. Chung, H.-K. Lim, I.-S. Park, K.H. Choi, S.Y. Chung, D.S. Kim, C.-S. Park, O. Hwang, J.-i. Kim (South Korea) 157–166
In vitro evaluation of the cytotoxic potential of alkylphenols from *Ginkgo biloba* L.
H. Hecker, R. Johannisson, E. Koch, C.-P. Siegers (Germany) 167–177
A comparison of the efficacy of pyridostigmine alone and the combination of pyridostigmine with anticholinergic drugs as pharmacological pretreatment of tabun-poisoned rats and mice
J. Kassa, J. Vachek (Czech Republic) 179–185
Lead induced oxidative damage and its response to combined administration of α-lipoic acid and succimers in rats
M. Pande, S.J.S. Flora (India) 187–196
Mammary gland differentiation in female rats after prenatal exposure to 3,3',4,4',5-pentachlorobiphenyl
T. Muto, S. Wakui, N. Imano, K. Nakaaki, H. Takahashi, H. Hano, M. Furusato, T. Masaoka (Japan) . . 197–205
In vitro co-metabolism of ethanol and cyclic ketones
G. Buszewicz, R. Madro (Poland) 207–213
Dietary exposure to chlorpyrifos alters core temperature in the rat
C.J. Gordon, B.K. Padnos (USA) 215–226
Polybrominated diphenyl ethers (PBDEs), polychlorinated biphenyls (PCBs) and chlorinated paraffins (CPs) in rats—testing interactions and mechanisms for thyroid hormone effects
S. Hallgren, P.O. Darnerud (Sweden) 227–243
Relationship between trichosanthin cytotoxicity and its intracellular concentration
W.-L. Chan, Y.-T. Zheng, H. Huang, S.-C. Tam (Hong Kong, China) 245–251
Cadmium affects genes involved in growth regulation during two-stage transformation of Balb/3T3 cells
M.-Z. Fang, W. Mar, M.-H. Cho (South Korea) 253–265
Biochemical and toxicological evaluation of agent-cofactor reactivity as a mechanism of action for osteolathyrism
D.A. Dawson, A.C. Rinaldi, G. Pöch (USA, Italy, Austria) 267–284

Environmental and Nutritional Interactions

Metal working fluids: sub-chronic effects on pulmonary functions in B6C3F1 mice given vitamin E deficient and sufficient diets
A.A. Shvedova, E. Kisin, A. Murray, T. Goldsmith, J.S. Reynolds, V. Castranova, D.G. Frazer, C. Kommineni (USA) 285–297
